

## Eureka abc's & 123's Racing Adventure

Developed in conjunction with Australian and New Zealand school curricula guidelines, this children's educational computer game is set in a 3D environment and offers a fully interactive learning experience for young minds.

Children learn naturally through play, which encourages self learning and helps to promote concentration skills.

### Eureka abc's & 123's Racing Adventure features:

- Race along the track and match the letters of the alphabet to their objects.
- See if you can match the upper case letters to the lower case in the correct sequence.
- Recognise the sequence of the alphabet and have fun singing the alphabet song.
- Zoom along collecting and matching objects to their corresponding numbers and letters.
- Interact and recognise numeration and sequencing. Sing along to the "Fish" song.
- As a reward, you can race against your opponents. Just choose a character and off you go!

### Natural development of ESSENTIAL SKILLS in:

- Letter to sound awareness
- Sequencing of letters
- Upper and lower case letter relationships
- Tracing handwriting patterns
- Ordinal numbers: 1st, 2nd, 3rd and 4th
- Numeration
